

Assignment 2 - JavaScript Code

Q3.

```
1  const http = require("http");
2
3  const server = http.createServer((req, res) => {
4
5      if (req.url === "/student") {
6          res.writeHead(200, {
7              "Content-Type": "application/json"
8          });
9
10         const student = {
11             id: 101,
12             name: "Zoro",
13             course: "BTech in Computer Science",
14             semester: 4,
15             city: "Mumbai"
16         };
17
18         res.end(JSON.stringify(student));
19     } else {
20         res.writeHead(404, {
21             "Content-Type": "text/plain"
22         });
23
24         res.end("404 - Page Not Found");
25     }
26 });
27
28 server.listen(3000, () => {
29     console.log("Server is running on http://localhost:3000");
30 });
```

```
[Running] node "/Users/zoro/Developer/ITM Collage/2nd Year/Sem-3/Backend/Assignments/Assignment 2/tempCodeRunnerFile.js"
Server is running on http://localhost:3000
